The Chickasaw Nation Department of Commerce Game Rules for King’s Bounty Blackjack
**Game Description**

King’s Bounty is an optional side wager that will be incorporated into selected Blackjack table games. This bonus considers the first two cards a player receives within a hand of Blackjack. The top award also considers the dealer hand in conjunction with the player’s first two cards. Odds are paid to the side wager according to a fixed paytable.

At the beginning of each hand, patrons will place their primary wager as dictated by game limits and all applicable facility guidelines for Blackjack table games. Each patron also has the option to place the King’s Bounty side wager in the designated wagering area. A standard hand of Blackjack will then be dealt.

Once each wagered hand has received two cards, the side wagers will be reconciled.

- Exception – If a player has two Kings of Spades and the dealer has a potential blackjack, the dealer will settle the King’s Bounty bet at the end of the round. If the dealer has a blackjack, that player will not have the option of adding to their blackjack wager.
